### **Factual Background**

I. *Defendant Used the BitTorrent File Distribution Network To Infringe Plaintiff's Copyrights*

11. The BitTorrent file distribution network (“BitTorrent”) is one of the most common peer-to-peer file sharing systems used for distributing large amounts of data, including, but not limited to, digital movie files.

12. BitTorrent’s popularity stems from the ability of users to directly interact with each other in order to distribute a large file without creating a heavy load on any individual source computer and/or network. The methodology of BitTorrent allows users to interact directly with each other, thus avoiding the need for intermediary host websites which are subject to DMCA take down notices and potential regulatory enforcement actions.

13. In order to distribute a large file, the BitTorrent protocol breaks a file into many small pieces. Users then exchange these small pieces among each other instead of attempting to distribute a much larger digital file.

14. After the infringer receives all of the pieces of a digital media file, the infringer’s BitTorrent client software reassembles the pieces so that the file may be opened and utilized.

15. Each piece of a BitTorrent file is assigned a unique cryptographic hash value.

16. The cryptographic hash value of the piece (“piece hash”) acts as that piece’s unique digital fingerprint. Every digital file has one single possible cryptographic hash value correlating to it. The BitTorrent protocol utilizes cryptographic hash values to ensure each piece is properly routed amongst BitTorrent users as they engage in file sharing.

17. The entirety of the digital media file also has a unique cryptographic hash value (“file hash”), which acts as a digital fingerprint identifying the digital media file (e.g. a movie). Once infringers complete downloading all pieces which comprise a digital media file, the

BitTorrent software uses the file hash to determine that the file is complete and accurate.

18. Plaintiff's investigator, IPP International UG ("IPP") established a direct TCP/IP connection with the Defendant's IP address as set forth on Exhibit A.

19. IPP downloaded from Defendant one or more pieces of each of the digital media files identified by the file hashes listed on Exhibit A.

20. Each digital media file as identified by the file hash listed on Exhibit A correlates to a copyrighted film owned by Plaintiff, as set forth on Exhibit B.

21. A full copy of each digital media file was downloaded from the BitTorrent file distribution network, and it was confirmed through independent calculation that the file hash correlating to each file matched what is listed on Exhibit A. At no point was Plaintiff's copyrighted content uploaded to any other BitTorrent user.

22. The movies contained in the siterip(s) files downloaded, copied and distributed by Defendant are enumerated in Exhibit C. Each siterip is a digital media file containing a zip folder with several of Malibu Media's audiovisual works, each of which is identical (or alternatively, strikingly similar or substantially) to Plaintiff's corresponding original copyrighted work listed on Exhibit B.

23. Further, each digital media file as identified by the file hash listed on Exhibit A has been verified to be a copy that is identical (or alternatively, strikingly similar or substantially similar) to Plaintiff's corresponding original work.

24. Plaintiff owns the copyrights to the original works (the "Copyrights-in-Suit"). An overview of the Copyrights-in-Suit, including each hit date, date of first publication, registration date, and registration number issued by the United States Copyright Office is set forth on Exhibit B.

25. Defendant downloaded, copied, and distributed a complete copy of Plaintiff's works without authorization as enumerated on Exhibit A.

26. IPP connected, over a course of time, with Defendant's IP address for each digital media file identified by the hash value as listed on Exhibit A. The most recent TCP/IP connection between IPP and the Defendant's IP address for each file hash value listed on Exhibit A is included within the column labeled Hit Date UTC. UTC refers to Universal Time which is utilized for air traffic control as well as for computer forensic purposes.

27. Plaintiff's evidence establishes that Defendant is a habitual and persistent BitTorrent user and copyright infringer.

#### **Miscellaneous**

28. All conditions precedent to bringing this action have occurred or been waived.

29. Plaintiff has retained counsel and is obligated to pay said counsel a reasonable fee for its services.

#### **COUNT I** **Direct Infringement Against Defendant**

30. The allegations contained in paragraphs 1-29 are hereby re-alleged as if fully set forth herein.

31. Plaintiff is the owner of the Copyrights-in-Suit, as outlined in Exhibit B, each of which covers an original work of authorship.

32. By using BitTorrent, Defendant copied and distributed the constituent elements of each of the original works covered by the Copyrights-in-Suit.

33. Plaintiff did not authorize, permit or consent to Defendant's distribution of its works.

34. As a result of the foregoing, Defendant violated Plaintiff's exclusive right to:

- (D) Display the copyrighted works, in violation of 17 U.S.C. §§ 106(5) and 501, by showing individual images of the works nonsequentially and transmitting said display of the works by means of a device or process to members of the public capable of receiving the display (as set forth in 17 U.S.C. § 101's definition of "publically" display).

35. Defendant's infringements were committed "willfully" within the meaning of 17 U.S.C. § 504(c)(2).

WHEREFORE, Plaintiff respectfully requests that the Court:

- (A) Permanently enjoin Defendant and all other persons who are in active concert or participation with Defendant from continuing to infringe Plaintiff's copyrighted works;
- (B) Order that Defendant delete and permanently remove the digital media files relating to Plaintiff's works from each of the computers under Defendant's possession, custody or control;
- (C) Order that Defendant delete and permanently remove the infringing copies of the works Defendant has on computers under Defendant's possession, custody or control;
